

NACA Foundation by the Numbers

FY20 Financial Statements

The **NACA® Foundation** was established in 1982 to develop and provide educational programs and services for college and university students, professional staff and others who work in the field of student activities.

The Foundation currently offers a variety of scholarships to assist undergraduate students, graduate students, professional staff and associate members in pursuing educational interests and career development.

When you support the Foundation, you are a part of something really special: a community dedicated to developing knowledgeable and innovative leaders through research and scholarship. For the past 38 years, our donors' belief in the NACA® Foundation as a valuable community asset has made it possible to award numerous scholarships, research grants, and professional development opportunities to members of the campus activities community. We take great pride in our mission and accomplishments, and with your continued support, we can persist in advancing the field of campus activities.

A Few of Our Recent Scholarship Recipients

Alexis McKenzie

For much of my life, I have had a passion for education and mentorship. In the fall, I'll begin the Master's of School Counseling program at Ball State University. I've studied interpersonal communication with minors in history, African American studies, and history. I'm excited to see the way that my course of studies informs and overlaps with my future as a counselor working with high school students.

Yanisa Robbins

I will be pursuing a Master of Nursing degree to eventually become an acute care nurse practitioner. I am passionate about patient care and making a difference in healthcare quality. During my free time, I enjoy taking additional coursework of my interest at a local community college to stay motivated and informed as well as hiking with friends all over the country.

José Silva

I am an immigrant from Mexico and I've wanted to be a dentist for as long as I can remember. During my time at CSU, I worked for multiple dental offices and noticed the sub-par care given to Spanish-speaking patients. My goal is to provide a bilingual office that treats all patients equally. I aim to make a change in the way people look at minorities by realizing that my background is also one of my strengths.

Renu Sagreiya

My childhood in a hardworking Asian immigrant family shaped my aspirations to use my rigorous education to build bridges between those who have a voice and those who do not. As a trilingual (English/Hindi/Spanish) Juris Doctor passionate about human rights, I desire to pursue academic law librarianship. I hope to specialize in immigration, foreign and international law.
